Industrial CF6A-M

Industrial CF6A-M

Overview

Apacer industrial CF6A-M card is compliant with the CFA 6.0 specifications. Apacer adopts the standard 50-pin connector and MLC chip lower cost and higher capacity for the card. It is available in capacities from 8GB to 64GB. The data transfer mode is up to PIO Mode 6 , Multiword DMA Mode 4 ,Ultra DMA Mode 7 , PCMCIA UDMA Mode 7, with the sequential read/write speed reaching as fast as 115/75 MB/sec. To help data stay correct, this CF6A-M memory card also supports 72-bit ECC function, wear-leveling function and S.M.A.R.T. (Self-Monitoring, Analysis, and Reporting Technology), thereby substantially enhancing product reliability.

*The actual available memory on the device is less than what is listed on the package. This is due to small discrepancies in file formats and algorithms used by various operating systems. In addition, a portion of memory space is reserved for system files and data sectors for better performance.
